

Book Sewing Machine

one of the leading manufacturers engaged in developing and producing Book Binding Machineries such as Thread Book Sewing Machine, Perfect Binding Machine and Creasing Machine etc. to quote a few, thus serving the Printing and Book Binding Industry for nearly two decades.

latest technology in its quest to

achieve perfection, speed, quality and consistency. The company has installed a record number of machines through the length and breadth of the country.

Production Speed

The construction and working of the machine permit maximum speed of 70 sections per minute. However, the actual output depends upon size of section, type of paper, kind of fold and the skill of the operator.

Technical Data :	
RS 201	
Maximum size of Book	18" x 9 ³ / ₄ "
Minimum size of Book	4" x 3 ¹ / ₄ "
Stitching Area	15 ³ / ₄ "
Net weight (approx)	700 kgs.
Gross weight (approx)	900 kgs.
Speed	70 sections p.m.
Motor	0.5 H.P.
Space required	5'X6'
Provided with Magnetic Brake.
