or Semi-auto mode; Counter for number of Book-blocks processed; Dedicated switches for clamping and Nipping functions in Manual Mode. Emergency Switch and Recycle Push Buttons are easily located on the Top Cover.

There is an emergency switch which end the process and resets the machine to starting position. For safety, it has push buttons which is pressed simultaneously for initiating the cycle. A device which incorporated as further protection in case of failure of recycle switches once operators' hands are on clamping area.

Moreover, its high-speed exhaust fan make sure the ambient temperature in Power Pack Area is maintained. Its advance hydraulic process makes it possible to prepare 700/800 books (single book-block up to 30mm spine thickness) per hour.

Technical Specifications:

Description	Unit	NP 33
Book Width	mm	330
Book Spine (Min-Max)	mm	20 - 110
System Clamp Pressure	kgs	3000
Nipping Pressure (Adjustable up to)	kgs	4000
Electrical Load / Motor	Kw / HP	2.25/3
Electrical Supply	440 / 440V AC 50 Hz 3PH	
Net Weight (Approx.)	kgs	550
