

HYDRAULIC ENVELOPE DIE CUTTING PRESS MACHINE

Hydraulic Envelope Die Cutting Press Machine

This is a Hydraulic Envelope Die Cutting Press Machine. Most rigid machine to undertake full Load. Useful for manufacture of Envelopes, Inland letters, cards, Die Cutting, Fabric Cutting, Leather Cutting, rubber, plastic packing, textile, chemical fibre, Patch Cutting, Envelope Punching, paper punching etc. Cutting Die setting mechanism very simple, High speed travel up to top of die and cutting at high pressure when in contact with die cutter, Upper moving table can be set at any position at top and at

bottom electronically. Operation with electric push button for safety.
Easy setting of machine die. Cutting force is more than sufficient required for all above jobs. Day light area is adjustable, it is fitted with PLC control system for operation.
Table In and table out is Hydraulic Almost negligible maintenance than required in mechanical machines.

Specification

MAXIMUM CUTTING FORCE	11.5 TONS
STROKE	150 MM
RANGE BETWEEN WORKING TABLES	MORE THAN 200 MM
WORKTABLE SIZE	20" X 25"
DRIVE TYPE	HYDRAULIC
MAIN MOTOR	5 HP THREE PHASE 440V/50HZ
