HYDRAULIC PRESSES FOR BOOK BINDING

for finishing of Hard-Cover/Perfect-Bound Books, Diaries, Dictionaries & Directories etc.

Bundling Press

Press ideally suited for pressing and bundling of folded sheets (*signatures*), brochures, book-blocks etc. for Perfect and / or Hard-Case Binding process. Hydraulically Pressed bundles protect the folded sheets from being damaged at the edges. Air or dust cannot get into the pressed-folded sheets, maintaining the fresh look of printed images. Proper stacking of bundles (pre / post gathering / collating) saves the floor space.

Push-button/Foot-Switch operated hydraulic system has a built-in power saving device. When the push Button or Foot-Switch is activated, the motor automatically gets switched-ON. The motor also gets switched-off as soon as the pre-set pressure (*adjustable upto 2000kgs*) is attained. Reset Push Button for release of the bundle and the moving platen returns to its Set-Open Position.

Support Flap (*Optional*) can be incorporated to assist the operator, the pile of the loose sliding signatures can be held in position by lowering the support flap, whilst fresh signatures are being stacked to the pile. The device is useful for optimum efficiency and productivity.

Clips provided on pressure Plates of Fixed & Moving Platens for guiding the Cord (*string*) from getting entangled with the pile of signatures. Tray provided on moving platen for storing excess length of cord and the end support planks (*plyboard / hardboard*).

Technical Specifications

Description	Unit	BP I
Pressure Platen Size	mm	410 X 260
Pile Length (<i>Min - Max</i>)	mm	300 - 650
System Clamp Pressure (<i>Adjustable upto</i>)	kgs	2000
Electrical Load - Motor	kva / HP	1.5 / 2
Electrical Supply		400/440V AC 50 Hz 3Ph
Hydraulic Oil Capacity	ltrs	30
Overall Dimension (<i>WxDxH</i>)	cms	123 x 50 x 110
Net Weight (<i>Approx.</i>)	kgs	350

experience and knowledge of book-binding acquired in the past two decades is reflected in the competence, quality standards, using indigenous inputs and dedication in search of new solutions for producing excellent finished books, magazines and stationery items through the most economical means.
