

Corner Pasting Machine

The rigid box corner pasting machine adopts manual carton turning and can accommodate many types of cartons. It uses environmentally friendly hot melt adhesive tape for four corner positioning and forming. The box corners formed are stiff and stable. The machine uses electric single arm pressing device and is equipped with temperature control system. With high efficiency, the machine becomes an essential piece of corner pasting equipment for the manufacturing of boxes

Parameters:

Per	
Power Supply	220 V/50 HZ
Machine Power	700 W
Minimum Box Size	40*40*10 mm
Corner Pasting Speed	20 pcs/min
Size	800*500*1400 mm
Weight	200 kg
