Hydraulic book press designed specially for exercise note Books/Stationery Manufacturers. The platen Area adequately covers 3-Up or 4 UP exercise Note Books.

- ✓ The Printed title can be pasted on open book size up to 610x460/ 800x500mm/ 1040x650mm with daylight area up to 260mm on both upper & lower decks- alternatively.
- ✓ Moving on both the sides and the upper & lower fixed base platen are equipped with stainless steel plates for best results.
- ✓ Centrally positioned moving platen is convenient for utilizing maximum Idle Time. While the lower deck is being used for pressing the stack of books etc. the upper deck can be loaded for next cycle.
- ✓ PLC can be set to meet specific requirement of boards/ cards/sheets. The system would release the stack of book from either upper/lower deck after a pre set time. Thereby ensuring all books are pressed uniformly.
- ✓ Control Panel is equipped with mains Switch, Pump ON/ OFF Switch; Switch for operating the system in Manual Mode; PLC Manual / Auto Mode Switch and Emergency Switch. Castors are Provided for Maximum Space Utilization

Technical Specifications-

Description	DBP-I	DBP-II	DBP-III
Pressure Platen Size (Single) (mm)	610x460	800x520	1040x650
Pile Height Upper Deck (Min-Max.)	70-260	70-260	70-260
Pile Height Lower Deck (Min-Max.)	70-260	70-260	70-260
System Clamp Pressure	6000 kgs	8000 kgs	10,000 kgs
Hydraulic Oil Capacity	35 Ltrs.	35 Ltrs.	35 Ltrs.
Net Weight Approx.	700 Kgs.	850 Kgs.	1050 Kgs.
